OBJECTIVE

Second-year Computer Science student at Lotus University (GPA 3.09/4.0) focused on frontend development. Completed the GDG Minya frontend course and currently enrolled in the Digital Egypt Pioneers Initiative (DEPI) frontend program, building responsive websites with HTML5, CSS3, JavaScript, Bootstrap and React. Eager to contribute to a team and grow into a professional frontend developer.

EDUCATION

B.Sc. in Computer Science and Information | Lotus University – Faculty of Computers and Information
2024 – Present
Minya, Egypt

- GPA: 3.09 / 4.0
- Relevant Coursework: Introduction to Programming, Problem Solving, Computer Fundamentals, Discrete Mathematics

COURSES & TRAINING

Frontend Development Scholarship | Digital Egypt Pioneers Initiative (DEPI) *2025 – Present*

- Training in HTML5, CSS3, JavaScript, TypeScript, Bootstrap and React
- Responsive design, Git & GitHub, and Prompt Engineering
- Real-world project building and freelancing readiness

Frontend Development Course | Google Developer Group (GDG) – Minya Chapter *2025*

- Learned the fundamentals of HTML5, CSS3, and JavaScript
- Built responsive web pages and practiced DOM manipulation and event handling
- Introduced to Git and GitHub for version control

TECHNICAL SKILLS

- **Web Development:** HTML5, CSS3, JavaScript, TypeScript, Bootstrap, React, Responsive Design
- **Programming Languages:** C++ (data types, loops, functions, arrays) — C# — Python
- **Version Control:** Git & GitHub
- **Microsoft Office:** Word, Excel, PowerPoint — advanced user
- **Other:** Prompt Engineering

PROJECTS

Family Bakery Website | HTML5, CSS3
Live Demo: mahmouedmostafa1234-create.github.io/Bakery_Site/ | *GitHub:* github.com/mahmouedmostafa1234-create/Bakery_Site

- Desktop bakery webpage with clean semantic structure, visual styling and multi-section layout

Shoes E-commerce Storefront | HTML5, CSS3
Live Demo: mahmouedmostafa1234-create.github.io/Ecommerce-Shose/ | *GitHub:* github.com/mahmouedmostafa1234-create/Ecommerce-Shose

- E-commerce storefront with clean UI structure, desktop alignment and product showcase grids

Personal Portfolio Page | HTML5, CSS3, Bootstrap
Live Demo: mahmouedmostafa1234-create.github.io/Personal_port/ | *GitHub:* github.com/mahmouedmostafa1234-create/Personal_port

- Built a personal webpage with Bootstrap, showcasing layout skills and semantic structure

Calculator Program | Academic (C++)

- Console-based calculator covering basic arithmetic, with user input handling and conditional logic

SOFT SKILLS

- **Teamwork & Communication:** Works well in groups and explains technical ideas clearly
- **Time Management:** Balances coursework, training and personal projects
- **Leadership:** Takes initiative and guides peers through problems
- **Self-Learning:** Learns new tools and technologies independently

LANGUAGES

- Arabic: Native
- English: Very Good (Reading, Writing, Speaking)

ACTIVITIES

- Attended GDG Minya tech events and workshops
- Participated in study groups and mentored peers in programming and debugging
